LANGUAGES / SKILL

Frontend: React, React Native, JavaScript, TypeScript, TailwindCSS, Next.js

Backend: Node.js, MongoDB, SQL, REST APIs

Testing: Playwright, Appium, Cucumber, Test-Driven Development

DevOps: Docker, Kubernetes, CI/CD, Linux, ARM, Sentry, Datadog

WORK EXPERIENCE

Software Engineer – Ecco, Inc. – Los Angeles, CA

2025 – Present

- Developed voice search for the React Native mobile app used by 800+ users
- Built a cross-platform test automation framework (Playwright/Cucumber/Appium) and CI/CD pipeline that cut production errors by 90% and sped up releases for a GenAI search product
- Debugged and resolved a critical AWS and Weaviate failure affecting search for 10,000+ users while on weekly on-call, restoring service within 2 hours over a holiday weekend
- Fixed rendering and behavior bugs in 12+ React components to match UI/UX design specs
- Wrote internal technical docs that cut new engineer onboarding from weeks to days
- Built TikTok-style infinite scroll for the Feed across mobile and web

PROJECTS

Portfolio – <https://parkhurstcolin.github.io/>

Full-stack personal portfolio and blog built with React, TypeScript, and Tailwind CSS – client-side routing and automated deployment to GitHub Pages via GitHub Actions

Flipper – <https://parkhurstcolin.github.io/Flipper/>

Movie recommendation app built with React featuring infinite scroll, state management, and REST API integration – deployed via GitHub Pages

HomeLab –

Multi-architecture (ARM/x86) home cluster running Kubernetes and Docker with NAS storage integration

AWARDS

Business Professionals of America (State Conference):

Cisco System Administration

3rd Place – 2011

2nd Place – 2012

Computer Security

4th Place – 2011

Computer Network Technology

3rd Place – 2012

EDUCATION

Joseph P. Keefe Technical School,
Framingham, MA - *Diploma*

Sophomore Year: A+ Certification

Junior Year: Cisco CNA Parts 1 + 2

Senior Year: Cisco CNA Parts 3 + 4

HOBBIES

Network Homelab

Studying History

Video Games
